PREFACE

On behalf of the Central Georgia Genealogical Society and its Publications Committee, I wish to express our graditude and appreciation to Mrs. Davine V. Campbell of Marshallville, Georgia for her contribution of the 1870 Census of Macon County, Georgia. Her work has been donated for publication by our Society.

The 1870 census of Macon County is very difficult to read and more than a dozen groups of pages are microfilmed out of order or in reverse order. Mrs. Campbell has arranged her abstractions by the family number which represents the order of visitation by the enumerator. She has made every effort to identify hard to read names and to cross check questionable spelling with other available records. Since she prepared her work initially for her own use, it was necessary for us to reduce the print size to provide the necessary margins for binding.

Mrs. Campbell has also contributed her abstraction of the 1840 Census of Macon County and the 1852 Tax Digest of Macon County for publication by our Society. These are currently being edited for publication. She is also working on the 1880 Census for Macon County for future contribution to our Society and mutual agreements have been reached to do additional records from microfilms which we have funded.

Again our thanks to Mrs. Campbell for volunteering her service to accomplish these most needed genealogical projects. Our hat is off to her and we hope she is an inspiration for other society members to make like contributions.

It should be noted that Macon County was named for Nathaniel Macon, a North Carolina statesman. It was the ninetieth county created in Georgia and was taken from Houston and Marion counties in 1837 and county boundaries have changed and overlapped many times in this region. The land now Macon County began as part of four original land lot counties: Houston, Muscogee, Lee, and Dooly. Oglethorpe is the county seat.

Assistant Editor

In typing the 1870 Census of Macon County, Georgia, I have spent many hours learning to appreciate the fancy writing for that day and age. On many names it was matter of figuring out each letter and trying to make a name of it. I did however have the 1860 Census and the 1900 Census to refer to.

There are several things to watch for:

James and Joseph were written as Jo^{s} or Ja^{s} and sometimes the o or a were almost impossible to distinguish. If you have a James or a Joseph, you should check the original census to see if I guessed correctly.

David and Daniel looked very much alike.

An interesting thing that I noticed was, you could almost tell when head of household was a soldier in the Civil War by the skip in ages of the children when the husband was away at war.

It was a help in reading the ages when I finally realized that there was no occupations or reference to being at school or at home for a person under 10 years of age.

Mr. J. H. Jones, the census-taker, elected to number the town of Marshallville and then, start over in numbering the remainder of the county. I have put an M in front of the Marshallville numbers in the census as well as the index.

A double s was written with a letter looking very much like a p, such as Mapee meaning Massee, or Rop - meaning Ross.

Pages	1-9	Household # 1-65	Town of Marshallville

Pages	109-140	Household # 998-1281	Gatlins District (757)

Pages	194-227	Household # 1827-2136	Montezuma District (770)

This census was typed from printed pages, copies of the microfilm and those pages are on file at my house.
